SUMMARY

Fullstack Developer with 4+ years of experience working with React, Node.js, Express, MongoDB and Supabase. Skilled in writing clean, maintainable code, improving user experiences, optimising application performance. Passionate about turning ideas into efficient, high-quality solutions.

EXPERIENCE AND PROJECT

HNG TECH - Frontend developer Intern(certificate)   **remote**

- Contributed to team-based projects by cloning existing repositories, setting up development workflows, and maintaining clean version control practices using Git and GitHub.
- Work as a team, explored, and developed e-commerce website UI
- Worked with 2 designers, 1 product manager, and 3 developers to achieve design goals during the internship.
- Make use for timbu.cloud business management software as the database.
- Use Git/GitHub for version control.
- Work with branches, pull requests, and code reviews

Personal Portfolio - Hiifolio

- personal portfolio website using React, featuring projects, skills, and contact information with a fully responsive design.
- Integrated Supabase for database storage, authentication, and real-time updates, and implemented React Context API for scalable state management.
- Built reusable components for navigation, forms, and project cards, deployed the site for live access, and managed version control with Git & GitHub.

UrbanHaven Real Estate website - UrbanHaven

- Fullstack real estate website with listing management.
- Included features: advanced filtering (price range, category, location), responsive property grid with pagination.
- Technologies: Reactjs with real time data handling using Supabase.

Aurora thrift website - Aurora

- Built the full frontend using **React**, with state sharing and global logic handled via **Context API**
- Implemented secure user authentication and session handling using Supabase Auth
- Designed and integrated a structured Supabase Database for storing orders, users, and payment records

TECHNICAL SKILLS

Skills: HTML, CSS, Tailwind, JavaScript, Reactjs, Nodejs, Express.js, REST APIs, Supabase, Firebase, Git, GitHub, Postman

Soft Skills: public speaker, content creator, teamwork

EDUCATION

Federal University of Technology Minna Niger State Nigeria - Bachelor of Technology In Agricultural Technology
